MEASURING GUIDE

OUTSIDE MOUNTED WINDOW

- Step 1: Measure the width of the window including the molding or frame.**
Step 2: Measure the height of the window including the molding or frame.
Step 3: Add at least 3" to the width measurement for an overlap of 1 1/2" on either side of the window frame.
Step 4: Add at least 3" to the height measurement.

INSIDE MOUNTED WINDOW

- Step 1: Measure the width of the window frame.**
Step 2: Measure the height of the window frame.
Step 3: Deduct 1/4" to 1/2" from the width measurement to prevent your blinds from scratching the sides of the window frame.
Step 4: Deduct 1/4" from the height measurement if you don't want your blinds to rest on the sill.
